# Introduction

## **A continued partnership to achieve a Welcome Experience**

Every single person who enters a hospital has an experience, and it's Crothall's mission to make every experience a positive one. Yet while a warm environment is part of that equation, the cleanliness and safety of those spaces is paramount to ensure positive experiences for patients, guests, and clinical staff alike.

## **A joint commitment to health, safety, and the patient experience since 2006**

No matter what role a visitor plays, at Crothall, your work to ensure that hospitals have the resources and support they need to create, enact, and drive positive patient experiences is vital. And we at Tennant want to help you continue that mission as we have since 2006.

## **Tennant creates a cleaner, safer, healthier world**

Why Tennant? Because we are dedicated to helping Crothall continue to achieve your goals of a cleaner, safer, healthier world, just as we have been for the last decade of our partnership.

We provide trusted value that matters—on the surface and beyond—to directly support your goals. We focus on changing the way the world cleans, to enable you and your customers to focus more of your time, energy, and resources on driving meaningful interpersonal engagement, while we take care of the cleanliness and health of the facility.

Tennant is a recognized leader of the cleaning industry and has been a partner with Crothall since 2006. In this partnership, we are passionate about developing innovative and sustainable solutions that help our customers clean more spaces more effectively, while addressing the cleaning challenges that come with maintaining a hospital and its facilities.

Crothall measures success by how well you deliver a Welcome Experience to everyone. Tennant measures success by how well we enable you to do so.

Crothall so you can better serve your hospitals  
and those who enter them.**

# Tennant for Crothall

## Common Areas, Lobbies and Skyways

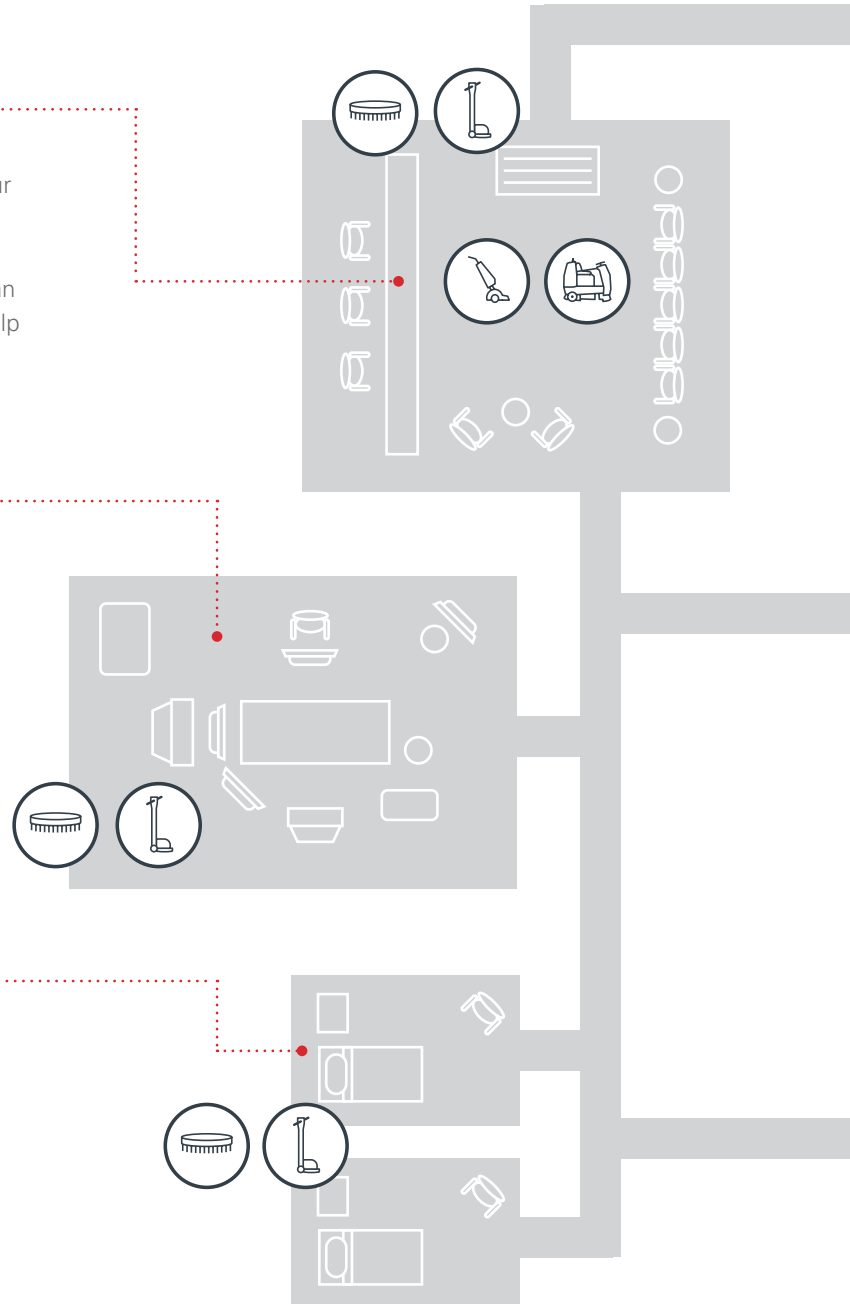

For a hospital's most visible areas, utilize Tennant's powerful line of **scrubbers**, **burnishers** and **vacuums** to maximize your productivity and level of clean. For daytime cleaning, reduce the risk from trips and falls related to cords with **cordless cleaning solutions**. If absenteeism or reduced resources is an issue, consider Tennant's **robotic cleaning equipment** to help ensure a consistent clean day in and day out.

## Operating & Emergency Rooms

Operating and emergency rooms have great pressure to turnover quickly to execute the needs of each day. While it's clear that operating and emergency rooms must remain clean and safe, doing so with speed is easier said than done—especially without the right equipment. Count on Tennant's expert line of **scrubbers** and **burnishers** to not only clean your ORs pre-op and post-op and your ERs in-between cases, but to do so efficiently and with confidence.

## Patient Rooms

Cleaning patient rooms frequently and efficiently with minimal disruption to the nursing staff, patients and visitors is key to a Welcome Experience for all. Ensure that your customers' patient rooms are hygienic with Tennant's versatile line of **scrubbers and burnishers**. Boost productivity and efficiency by performing day and night cleaning with low-noise operation and reduce chemical odor with detergent-free floor cleaning solutions.

### Sidewalks, Parking Lots, Garages and Loading Docks

The outside appearance of a hospital is just as important as the inside in creating a great first impression. Visitors notice sand, dirt, litter and other debris present. Improve perceptions of cleanliness and help prevent dirt from being tracked into the facility with Tennant's versatile line of **sweepers** for cleaning concrete and asphalt surfaces.

### Cafeteria

When it's time to eat, you want visitors and staff to feel comfortable knowing there's a clean, quick option to grab a bite on-premises. From the FOH dining area to the BOH kitchen, keeping these areas clean and orderly should be a top priority. Tennant's expert line of **scrubbers**, **carpet cleaners**, **burnishers**, and **multi-purpose surface cleaners** enable hospitals to provide a welcome experience at breakfast, lunch, dinner, and every snack in between.

### Restrooms

Keeping high-traffic areas like restrooms sanitary and safe can seem like a never-ending battle. Count on Tennant's line of products to keep them clean—**scrubbers** to remove floor grime, **backpack vacuums** to remove light debris, and **multi-purpose surface cleaning machines** for tiled walls and floors.

# Conclusion

## **Tennant and Crothall: Creating a cleaner, safer, and healthier Welcome Experience for all since 2006**

Ensure that patients, visitors, and staff feel safe from the moment they arrive to the moment they leave with Tennant's innovative cleaning solutions.

### **Partnership since 2006**

Working with Tennant Company offers trust, value, and confidence at the time of purchase and for the life of your equipment. With Crothall's and Tennant's continued partnership, you're enabled to solve problems more effectively, utilize resources more efficiently, and focus on the patient experience and meeting your goals, while we worry about the safety and cleanliness of the facilities.

### **Local Support**

Our Tennant sales and service teams are local and ready to serve your hospital as an expert in sustainable cleaning and as a member of the community. Count on us to provide the best product recommendations for your needs, help train and on-board your employees and ensure your machines stay running - no matter where you are.

### **Sustainable Solutions**

We're committed to empowering Crothall to create a cleaner, safer and healthier world with high-performance solutions that minimize waste, reduce costs, improve safety, contribute to LEED® credits in accord with USGBC guidelines, and further your sustainability goals.

### **Maintenance**

Our factory-trained team of Tennant direct service representatives responds quickly. We are at your site within one to two business days on average in most areas and come prepared with the equipment and tools needed to fix your machines right away, reducing downtime and lowering service costs.
