

Robotics in Airports: Results-driven Cleaning

With Tennant's 360° approach to autonomous cleaning, including our customer success deployment team, you can quickly address labor challenges, drive efficiencies and maintain a high standard of cleaning with a robotic solution designed to work safely and efficiently alongside your travelers and employees.

Optimize Labor

- Help reduce turnover and positively engage employees
- Robots work alongside employees
- Reliable cleaning, every day
- Help retain and attract workers
- Showcase visible innovation with robotics

Improve Cleaning Performance

- Proof of cleaning
- Get real time performance data
- Cleaning consistency

Maximize Traveler Experience

- Create a clean, safe environment
- Build traveler confidence
- Make cleaning visible 24/7

Not every robotic cleaning program will look the same. With more than 4,000 units already in operation, let Tennant help you identify common cost factors and design a cleaning program that is right for you.

Download our ebook, **The Path to Autonomous Floor Cleaning**, to read more about how robotic technologies can drive cleaning performance in airport and transportation facilities.
