

A teal and grey T7 AMR floor scrubber. It features a yellow boom extending from the side. The side panel has a logo that reads "60 H2O" and "Floor Scrubber". The model name "T7 AMR" is visible on the top left. The machine has a black seat, a steering wheel, and a control panel. It is equipped with large black wheels and a red brush at the rear.

- Help reduce turnover and positively engage employees
- Robots work alongside employees
- Reliable cleaning, every day
- Help retain and attract workers
- Showcase visible innovation with robotics

- Proof of cleaning
- Get real time performance data
- Cleaning consistency

- Create a clean, safe environment
- Enhance patient experience/
HCAHPS scores
- Make cleaning visible 24/7

Download our ebook, **The Path to Autonomous Floor Cleaning**, to read more about how robotic technologies can drive cleaning performance in healthcare facilities.
