

Robotics in healthcare: results-driven cleaning

With Tennant's 360° approach to autonomous cleaning, including our customer success deployment team, you can quickly address labor challenges, drive efficiencies and maintain a high standard of cleaning with a robotic solution designed to work safely and efficiently alongside your patients and employees.

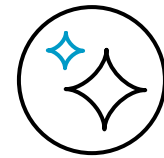

Optimize labor

- Help reduce turnover and positively engage employees
- Robots work alongside employees
- Reliable cleaning, every day
- Help retain and attract workers
- Showcase visible innovation with robotics

Improve cleaning performance

- Proof of cleaning
- Get real time performance data
- Cleaning consistency

Maximize student & staff experience

- Create a clean, safe environment
- Enhance patient experience/ HCAHPS scores
- Make cleaning visible 24/7

Not every robotic cleaning program will look the same.

With more than 6,000 units already in operation, let Tennant help you identify common cost factors and design a cleaning program that is right for you.

Download our ebook, [The Path to Autonomous Floor Cleaning](#), to read more about how robotic technologies can drive cleaning performance in healthcare facilities.
