

X4 ROVR

Clean 1.6 Release Highlights

November 13, 2024

1.6 Update Highlights

- **New Feature**

- Automatic Return-to-Home for empty clean water tank or full recovery water tank

Auto Return-to-Home

Robot automatically returns to home marker upon empty clean water tank or full recovery tank.

- The new Automatic Return-to-Home feature enables the robot to automatically return to its home marker when the clean water tank is empty, or the dirty water tank is full.
- This feature keeps facility floors clear and eliminates the need for operator to physically locate the robot within its trained route.

Thank You!
