

i-mop[®] XL & XXL Plus **Enhancements**

1. i-Balance pivot

Spring loaded balancing mechanism reduces the risk of the machine tipping over and relieves the operator of extra weight.

2. Anti-microbial recovery tank.

Construction of the tank reduces the growth of bacteria to avoid bad smells if left unemptied.

3. Battery safeguard

Automatically shuts off battery to optimize life, if left on and unused.

4. Upgraded battery and charger* for the XXL.

Accelerated charging time with an upgraded battery and charger on the XXL Plus.

5. Squeegee assembly

Quick change assembly allows for easier cleaning and changing of squeegee blades. Easily press the yellow touch points to access the squeegee blades.

6. Splash guards

Removable splash allow for quick cleaning and easy maintenance. No tools required.

7. Floating ball system

A floating ball in the recovery tank prevents overflowing by stopping the suction of additional residue when full.

**Battery and Charger are interchangeable with XL Plus machine, batteries and charger.*
