Engineered for Productivity

1. MaxPro™ sweeping technology provides consistent power to the main brush to deliver consistent cleaning results across various surfaces and debris types.

2. Multi-stage filtration system with a powerful filter shaker system maintains air quality by effectively containing dust during the sweeping process.

3. Manual low-dump configuration with VarioHeight™ handle increases ease of dumping debris for various operators.

4. Large capacity hopper improves productivity by reducing the frequency of dumping.

5. Operate easily with backlit controls featuring a 1-Step™ start button that simplifies training and ensures consistent cleaning performance.

6. Eco-Mode™ extends runtime and allows for anytime cleaning with reduced noise levels.

Optional Accessories

Increase safety and effective operation in the most severe environments with an optional **FOPs certified overhead guard.**

Clean off aisle and in tight spaces with the convenient optional **dry vacuum wand.**

Inside the S16
