V-LWU-13 | LIGHT-WEIGHT UPRIGHT VACUUM

Combining a high performance clean with ultra light, user-friendly design.

Proven performance
Standard with HEPA 2-stage filtration for improved air quality, the vacuum's cleaning performance is also certified Gold by the Carpet and Rug Institute's (CRI) Seal of Approval program.

Increased ease-of-use
Easily transportable 8lb/3.6kg vacuum easily maneuvers to help minimize operator fatigue and is up to two times lighter than many competitive models. Clean a variety of flooring surfaces quickly and efficiently with flexible settings and adjustable sound level.

Reliable durability
Major components have been proven in commercial application for over five years. Balancing the performance, durability, low operating costs and reduced weight of this vacuum makes it a great value at an affordable price.

Key Product Features

- Maximize cleaning efficiency with automatic pile height adjustment that adapts to a variety of floor surfaces and reduces premature brush wear.
- Clean without disruption in noise-sensitive environments using quiet mode, at less than 70 dBA sound level.
- Reduce maintenance costs and downtime with no-tool brush replacement.

V-LWU-13 | LIGHT-WEIGHT UPRIGHT VACUUM

FEATURES	SPECIFICATIONS*
Product Name	V-LWU-13
Vacuum System	
Airflow at 2 in / 50 mm orifice, high speed	106 cfm / 3 m^3/m
Vacuum motor hp	1.6 hp / 1.19 kW
Vacuum motor type	Single stage, thermal protected, direct air
Vacuum motor amps	6 A
Water lift at sealed orifice	71 in / 1804 mm
Brush Drive System	
Brush belt description	Round drive belt
Brush type	13 in / 330 mm wooden brush roll with natural bristles
Brush size	2.25 / 57 mm in diameter
Brush height	Automatic, self-adjusting
Filtration	
Double filtration system	HEPA paper bag, cloth bag
Double filtration description	High efficiency (99.97%) at 0.3 micron
Vacuum bag capacity	Fill design, 11.3 qt / 10.7 L
Electrical	
Power cord length	50 ft / 15 m, 3 wire commercial safety-yellow cord with thermal protection switch
Chassis/Body Construction	
Construction	Injection molded ABS
Dimensions / Weight / Sound Level	
Length	13 in / 330 mm
Width	14.75 in / 370 mm
Height	44 in / 1120 mm
Weight	8 lb / 3.6 kg
Sound level (at operator's ear), low speed	< 70 dBA
Approvals	UL, CRI SOA Gold
Warranty	See your sales representative or authorized distributor for complete warranty details.
