FLOOR TYPE

FLOOR TYPE	LINATEX®	PRIMOthane®	Gum
Brick Pavers	✓		
Ceramic Tile, Glazed and Unglazed Quarry Tile	✓		
Concrete, Polished	✓		
Concrete, Unpolished	✓		
Cork	✓		
Granite	✓		
Laminate	✓		
Linoleum	✓		
Luxury Vinyl Tile (LVT), Light Embossed Texture	✓		
Marble	✓		
Slate	✓		
Terracotta	✓		
Terrazzo	✓		
Wood	✓		
Vinyl Composite Tile (VCT)	✓	✓	✓
Poured Epoxy Anti-slip		✓	
Luxury Vinyl Tile (LVT), Heavy Embossed Texture (deep groves & ridges)		✓	
Rubber		✓	
SPECIAL CIRCUMSTANCES			
Noise: Eliminates chatter, squeaking or foghorn		✓	
Oil or Grease on Floors: Causes rubber squeegee to become wavy		✓	
Low Water Cleaning: Experiencing diminished water pick-up or resistance when pushing scrubber		✓	
Premature Squeegee Wear: The rubber squeegee physically / visually erodes faster than expected.		✓	
Airoflex® Squeegee Design  for optimal water pick-up on all floors Works especially well on uneven surfaces, like: grouted tile, luxury vinyl tile (LVT), heavy embossed textured, textured rubber (i.e. running tracks and field house floors), transitions between floor types and multiple floor surface situations.	✓	✓	

Squeegee Material Selection Guide By Floor Type

The right squeegee will pick-up all the water, on all your floors, all the time.

LINATEX®

- 95% pure natural rubber
- Best tear resistance and durability with optimal water pick-up
- Stamped with the LINATEX® logo

PRIMOthane®

- 38 durometer urethane
- Specially formulated for water pick-up where rubber doesn't perform
- Stamped with the PRIMOTHANE® logo

Gum

A combination of fillers and natural materials that vary by vendor (often dyed red, but available in any color)
