Industrial grade cleaning

Tennant equipment contributes to a safe and healthy work environment and helps remove waste left on the floor during mining. They clean outdoors with powerful, durable industrial sweepers and scrubbers. Recover potentially hazardous waste left on the floors, which can be recovered and recycled. At Tennant, we make it our business to know your business. A cleaner and safer mining and processing environment will have a great impact on your daily operations.

Container storage

Efficient indoor and outdoor sweepers with operator protection.

Warehouse & distribution centre

Powerful sweeping and scrubbing with enhanced safety.

Loading docks

Efficient sweepers and scrubbers that turn easily in any space.

Processing area

Solutions for your premises

OUR IN-DEPTH KNOWLEDGE OF THE MINING PROCESSING AND FABRICATION PLANTS MEANS WE CAN OFFER YOU BENEFITS THAT MEET YOUR UNIQUE NEEDS.

Tennant Technologies

Tennant's technologies help you to enhance safety and productivity while reducing water and chemical usage.

IRIS® Fleet Manager

IRIS® Fleet Manager allows you to manage your fleet of machines across multiple sites. This intelligent command center delivers key performance metrics, empowering you with actionable insights to optimise fleet performance, improve cleaning efficiency, drive measurable results, and reduce cost-to-clean.

ec-H2O™

ec-H2O™ scrubbing technology improves productivity by scrubbing up to 3 times longer with a single tank. It uses less chemicals and packaging and up to 70% less water than conventional methods, thus reducing the environmental impact of your daily cleaning and maintenance activities. It also improves safety for both passers-by and operators.

Your container storage areas and loading docks

QUALITY, RELIABILITY, DURABILITY,
BUILT TO LAST.

M17

S20

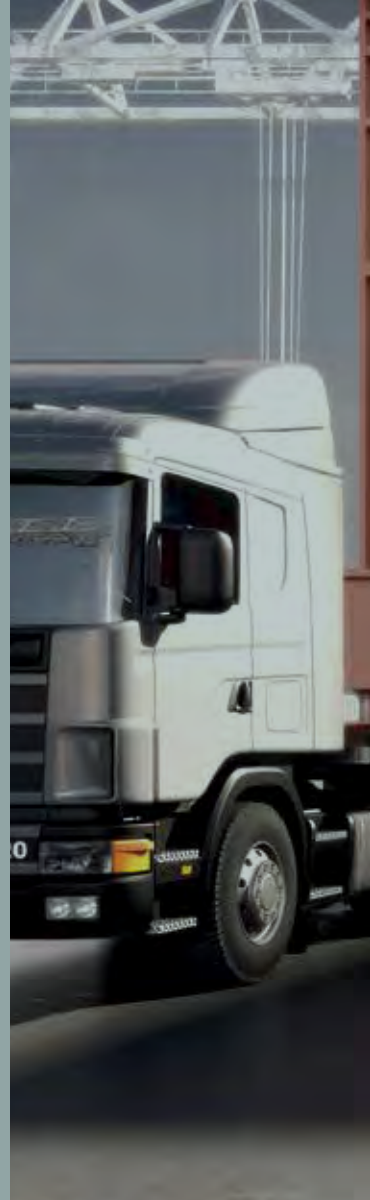

S30

M17

BATTERY RIDER SWEEPER-SCRUBBER

Reduce the need for multiple pass cleaning with the versatile M17 battery sweeper-scrubber. The M17 delivers exceptional sweeping and scrubbing performance, and it provides health and safety benefits. The M17 sweeper-scrubber is easy to operate and maintain, and quickly improves your facility's image.

S20

RIDE ON INDUSTRIAL SWEEPER

Mid-sized power is combined with the manoeuvrability of a ride-on machine in this compact sweeper. Suitable for indoor and outdoor use, it features a host of innovations for better dust control, including a vacuum fan and muffler, efficient filter cleaning mechanism and SweepMax™ technology. A wrap-around bumper with steel superstructure ensures reliability and long life. Safety is improved by excellent sightlines, side brush visibility and hopper temperature sensors.

Warehouses and distribution centres

EFFICIENT AND ORGANISED WITH MAXIMUM FLOOR SPACE.

S30

M20

M30

S30

MID-SIZED RIDE-ON SWEEPER

This mid-sized ride-on sweeper tackles all kinds of debris, both indoors and outdoors. It features a dust suppression skirt, 3-stage SweepSmart dust control™ as well as a II-Speed™ sweep system that adapts brush and fan speeds for maximum efficiency on different types of dirt. Its cab-forward design protects the operator, machine and facility with outstanding visibility, safety and ergonomics. The intuitive controls allow scrub settings to be changed without letting go of the steering wheel. Help create a healthier environment for your operators and customers and work towards WHS compliance with our optional HEPA filtration system and dust control skirts. For greater comfort and safety, a fully pressurized cab with HEPA class filtration, heating and air conditioning is available.

M20

INTEGRATED RIDE-ON SWEEPER-SCRUBBER

The M20 improves productivity by delivering exceptional sweeping and scrubbing performance and provides health and safety benefits. It is easy to operate and maintain, and quickly enhances your facility's image by cleaning in a single pass – wet or dry. Clean up to three times longer on a single tank of water using Tennant's innovative ec-H2O™ technology that uses up to 70% less water. Increase visibility with forward control design, open sightlines and steering-wheel-mounted controls. Provide an easy operator and maintenance experience with easy-to-use controls and easy-to-identify yellow touch points.

M30

LARGE INTEGRATED RIDE-ON SCRUBBER-SWEEPER

The M30 improves productivity by delivering exceptional sweeping and scrubbing performance, and provides health and safety benefits. It is easy to operate and maintain, and quickly improves your facility's image by cleaning in a single pass – wet or dry.

Dust control

HELPING **REDUCE EXPOSURE TO DUST** WITH OUR RANGE
OF HEPA OPTIONED INDUSTRIAL SWEEPING SOLUTIONS.

3640

WALK BEHIND SWEEPER

Clean most environments with the flexible and versatile 3640 Walk-behind Sweeper. The 3640 picks up debris from sand to light litter, even in tough industrial and manufacturing environments. Help create a healthier environment for your operators and customers by trapping dust with an optional HEPA filter. Help create a healthier environment for your operators and customers and work towards WHS compliance with optional HEPA filtration.

S10

WALK BEHIND INDUSTRIAL SWEEPER

The preferred sweeper in medium to heavy industrial facilities. This best-in-class walk-behind sweeps tight and open areas. Increase uptime with the largest hopper of any walk-behind sweeper. Help create a healthier environment for your operators and customers and work towards WHS compliance with our optional HEPA filtration system.

S16

RIDE ON INDUSTRIAL SWEEPER

Providing big productivity and versatility the S16 compact, battery-powered ride-on sweeper delivers exceptional sweeping performance across a variety of debris types. Achieve impressive dust control with a multi-stage filtration system and maintain air quality with fume-free operation. Help create a healthier environment for your operators and customers and work towards WHS compliance with our optional HEPA filtration system and dust control skirts.

RIDE ON INDUSTRIAL SWEEPER

Mid-sized power is combined with the manoeuvrability of a ride-on machine in this compact sweeper. Suitable for indoor and outdoor use, it features a host of innovations for better dust control, including a vacuum fan and muffler, efficient filter cleaning mechanism and SweepMax™ technology. A wrap-around bumper with steel super structure ensures reliability and long life. Safety is improved by excellent sightlines, side brush visibility and hopper temperature sensors. Help create a healthier environment for your operators and customers and work towards WHS compliance with our optional HEPA filtration system and dust control skirts.

S30

MID-SIZED RIDE-ON SWEEPER

This mid-sized ride-on sweeper tackles all kinds of debris, both indoors and outdoors. It features a dust suppression skirt, 3-stage SweepSmart dust control™ as well as a II-Speed™ sweep system that adapts brush and fan speeds for maximum efficiency on different types of dirt. Its cab-forward design protects the operator, machine and facility with outstanding visibility, safety and ergonomics. The intuitive controls allow sweeper settings to be changed without letting go of the steering wheel. For greater comfort and safety, a pressurised cab with HEPA (13) class filtration, heating and air conditioning is available as an option. Help create a healthier environment for your operators and customers and work towards WHS compliance with our optional HEPA filtration system and dust control skirts. For greater comfort and safety, a fully pressurized cab with HEPA class filtration, heating and air conditioning is available.

800

RIDE ON INDUSTRIAL SWEEPER

This heavy-duty industrial rider sweeper is the largest and most powerful in its class. It is built to capture all kinds of debris while filtering and containing dust, even in harsh and demanding environments. Productivity is enhanced by a wide sweeping path and a large-capacity hopper that reduces the need for frequent dumping. The cab is spacious and comfortable with a deluxe suspension seat, power steering, a tilt steering wheel and easy access to all controls. For greater comfort and safety, a pressurised cab with HEPA (13) class filtration, heating and air conditioning is available as an option. Help create a healthier environment for your operators and customers and work towards WHS compliance with our optional HEPA filtration system and dust control skirts. For greater comfort and safety, a fully pressurized cab with HEPA class filtration, heating and air conditioning is available.

The service you need **wherever** **you are**

No matter how you use your equipment, we've got you covered. Highly skilled and factory trained Tennant service technicians are available to handle all your maintenance needs.

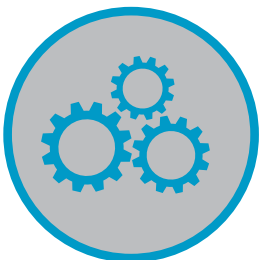

FACTORY DIRECT SERVICE

Our service team can help you decide which of our service agreements is best for your needs. Whether your top priority is maximum uptime, quick response or preventive maintenance, we have a package to suit you.

PREDICTABLE COST OF OWNERSHIP

Our comprehensive service offering is designed to protect your investment and lower the total cost of ownership. In addition, costs are predictable and can be perfectly budgeted.

TENNANT TRUE PARTS AND CONSUMABLES

You can expect top quality from our machines, and our parts and consumables are no different. As well as being durable, they are precisely designed to enhance results and improve your cleaning productivity. All Tennant parts and consumables are widely available, easy to order and delivered quickly.

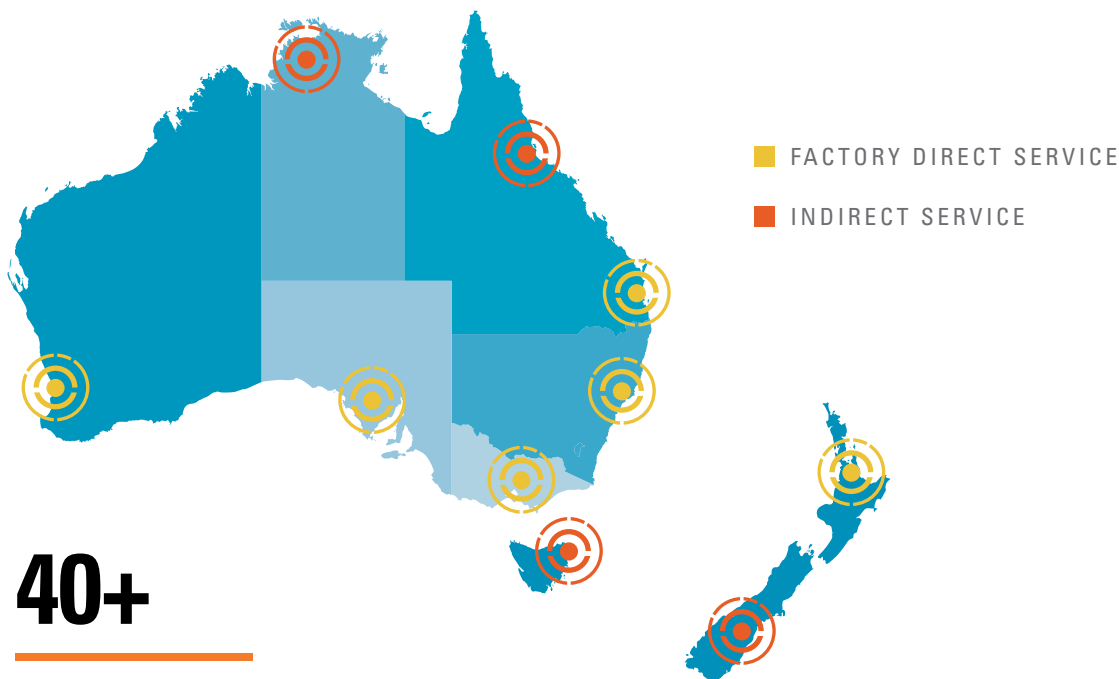

PROFESSIONAL CUSTOMER SUPPORT

Our customer support team is available during business hours on weekdays and weekends to help you to order parts or schedule a service visit.

Factory Direct Service Coverage

Over 40 direct service technicians and a constantly growing indirect service network covering Sydney, Melbourne, Brisbane, Adelaide, Perth and Auckland. If you require information for service outside the metro zones, please contact us on **1800 226 843** or visit **www.tennantco.com.au**
